

Information on Characteristics of Deposited Resources

		Deposit Form Application No. (Given by Bank)		
Name of the Deposited Resource	(Name of Resource)		(Management No. of Institution)	
Information about the Resource				
Category	☐ Bacteria ☐ Fungus ☐ Virus ☐ Protozoa ☐ Derivative Material ☐ Other ()		☐ Reference strain ☐ Isolate from clinical sample ☐ Genetically modified ☐ Other ()	
Classification	()Genus ()Species ()Subspecies			
Type of deposited resource	☐ solid culture ☐ liquid culture ☐ cell culture supernatant ☐ other ()			
	Titer		Subculture times	
Number/Volume of deposit resource	Number		Volume	
Deposit history	Depositor ← ※ In case the pathogen was not directly isolated please write the process of obtaining the pathogen.			
Articles and patents in which the depositor utilized the deposited resources				
Information for isolate	Source of isolation	☐ human (name of specimen:), (age:), (sex:), (overseas origin: <i>e.g.</i> country)		
		☐ non-human (<i>e.g.</i> pig stool, duck blood)		
	Diagnosis/Symptoms	※ Please indicate whether the source of isolation is human or animal.		
	Region	☐ Domestic (Region: , Acquisition date: <i>yyy.mm.dd.</i>) ☐ Overseas (Country: , Acquisition date: <i>yyy.mm.dd.</i>) ※ If the country of isolation is a party to the Nagoya Protocol, please attach documents related to the informed consent and mutually accepted terms with the providing country.		
	Isolated by		Date of isolation	
	Identified by		Date of identification	
Identification method of detecting pathogen	☐ PCR / RT-PCR ☐ VITEK ☐ MALDI-TOF ※ Attach the information about that method including prime sequence or a attach a reference paper. ☐ Other :			
Pathogen risk group	☐ Risk group 1 ☐ Risk group 2 ☐ Risk group 3 ☐ Risk group 4			
Biosafety level	☐ Level 1 ☐ Level 2 ☐ Level 3 ☐ Level 4			
Potential risk	☐ No risk ☐ Pathogenic ☐ Oncogenic ☐ Toxic ☐ Allergenic			

Under Paragraph 2 of Article 9 of the Act on the Promotion of Collection, Management, and Utilization of Pathogen Resources, I hereby submit donated pathogen resource characteristics as described above.
