< Instructions for filling the Form>

1. The main conditions for admission to preference are that goods sent to any of the countries participating in the Preferential Arrangements Among Developing countries Negotiated in GATT.
 - (i) must fall within a description of goods eligible for preference in the country of destination; and
 - (ii) must comply with the origin criteria specified for those goods by the countries of destination.
2. If the goods qualify under the origin criteria of the country of destination, the exporter must indicate in **Box 8** of the form as below:

Classification of goods by types of origin criteria	Indication to be made in Box 8 of the form
Goods wholly produced in the exporting country	P
Goods not wholly produced in the exporting country: Goods satisfying the origin criterion based on value added	Y followed by the value or materials imported or of undetermined origin, expressed as a percentage of the value of the exported goods Example: Y less than 50%
Goods satisfying the origin criterion based on a change in HS heading or other origin criteria	X followed by the HS heading No. of the exported goods Example: X 97.06
Goods satisfying two origin criteria	Example: X 84.05 Y less than 40%

3. Each article must qualify. It should be noted that all the goods in a consignment must qualify separately in their own right.
4. Language, description of goods, etc. In making out the form, it is recommended that English, French or Spanish be used, taking into account the acceptability of the language in the importing country. Entries on the form should be typed or hand-written: in the latter case use ink and capital letters. Any unused space should be struck through in such a manner as to make any later addition impossible. Any alteration must be endorsed by the certifying authority or body. The description of goods must be sufficiently detailed to enable the goods to be identified by the Customs officer examining them.
5. Procedure for claiming preference. A declaration on the certificate of origin form must be prepared by the exporter of the goods and submitted in duplicate to the certifying authority or body of the country of exportation, which will, if satisfied, certify the top copy of the certificate of origin and return it to the exporter for transmission to the importer in the country of destination. The certifying authority or body will itself keep the second copy duly completed and signed by the exporter.
