

TECHNOLOGY SECURITY PLEDGE (for Foreigner)

I, _____, hereby pledge to comply with the following matters concerning handling of technologies subject to management, change of position, retirement, etc., as of 00 000 2023,

1. I bear in mind that all technologies subject to management that I have come to know, as well as defense technologies I am currently handling or have handled before are of a significant nature regarding ensuring national security and regarding enhancing national credibility by performing obligations such as those relating to the security of defense technologies under international treaties.
2. I acknowledge the harmful implications that improper acquirement, usage, or disclosure of technologies subject to management, or preparation or plotting for such purposes may have on national safety and credibility, and therefore will faithfully comply with all regulations during my term of office.
3. I pledge to accept that improper acquirement, usage, or disclosure of technologies subject to management, or preparation or plotting for such purposes are actions beneficial to our enemies or anti-national, regardless of my intention, and shall bear severe punishment in accordance with the following legislation.
 - a. Article 10 (Prohibition on Leakage or Infringement of Defense Technology) of Defense Technology Security Act
 - b. Article 19 (Obligation of Confidentiality, etc.) of Defense Technology Security Act
 - c. Article 22 (Preparation and Plotting) of Defense Technology Security Act
4. I will use information processing equipment, such as computers of [the name of the other party's institution], and information and communications networks only for the purpose of given tasks. In the event of any anticipated leakage or infringement of technologies subject to management, I understand and agree that, for the sake of the security of technologies subject to management, [the name of the other party's institution] may peruse information processing equipment, including [the name of the other party's institution]'s computers I have used, my usage history of information and communications networks such as email, Internet, etc., and any other necessary information during my term of office or after my retirement.
