Regulations

1. Removing samples (e.g. for DNA extractions and/or dissections) from our biological specimens may be allowed only if permission is granted by the director of the division, and only in compliance with the policy on destructive sampling of the biological specimens.
2. Do not use samples for other purposes than the ~~above~~-defined purpose in this request form.
3. Do not offer samples(including extracts) to other institutions and researchers without permission of our division.
4. Commercial uses of samples(including extracts) and transforming materials commercially are strictly prohibited.
5. In case of publication on the results derived from our biological collections, you must acknowledge the source of the data and send a copy of the publication to KH.

I hereby request the permission to remove parts of biological collections. I have read and completely understood your regulations and conditions and will comply with them.
